

2. MATTER OF HISTORY: Construction of the main barn of the Monastery was started on Thursday, May 23, 1991. The purpose of the barn is very important in the Life of Monasticism. The Monks must work, and they must work to support themselves to the extent possible. The Barn will house chickens, and milk cows, as well as hay for the animals, and the machinery used in farming. There will also be a large work shop located in it. There has been a real need for this building for a very long time. Its construction is called "pole construction" and very economical as well as functional, and monastic .

Whosoever will be saved, before all things, it is necessary that he hold the Catholic Faith. Which Faith except everyone do keep whole and undefiled, without doubt he shall perish everlastingly. And the Catholic Faith is this, that we worship one God in Trinity and Trinity in Unity.

(The Athanasian Creed)
