

Please pray most earnestly that our Most Blessed Lord place His Holy and Divine Blessing on ALL Traditionalist priests and people - - that He will give and grant to ALL Traditionalist priests and people a larger sense of propriety, charity, compassion, and regard for other people's opinions, and good name. Please pray that our Most Blessed Lord gives Traditionalist priests and people a correct understanding of the TRULY Catholic way of life. Being a "traditionalist" does not necessarily mean that one is living a truly Catholic way of life. To begin with, Charity is the very foundation of the Catholic way of life. In other respects, being a good Catholic does not mean having to prove this or that about anything or anybody; being a good Catholic is not having to say the Rosary each and every day, or going to Mass and Communion every Sunday, or not eating meat on Friday. CATHOLICISM IS A TOTAL WAY OF LIFE - - - based on Charity. Traditionalists should be Leaders of the Catholic Way of Life, and should show good example in this regard.

The very painful sadness is that most Traditionalists - PRIESTS AND PEOPLE alike, give a very bad example in this regard - witness the many current Traditionalist publications: where the central theme is ATTACK! All such publications should be read only with great care and proper guidance. I do not here speak of a scholarly and orderly presentation of an objective Truth. One should always remember: any article, presentation, essay, or etc. which does not include the words IN MY OPINION of the author should not be read, and should be destroyed in order to curtail its circulation as much as possible. It is, however, fortunate that most such publications have a limited circulation, and are in most cases of very short duration, but they usually hang around long enough to cause damage to the right thinking of good people whose intentions are honest. It should be remembered, also, that OBJECTIVE TRUTH needs no additional commentary or interpretation, or proof. The time for attack and proof should be quite over, and Traditionalists should spend more time in prayer, fasting, sacrifice and penance. The atmosphere of argumentation, controversy, and animosity simply should not be found amongst people who call themselves Defenders of the Faith, and whose work is to "RESTORE ALL THINGS IN CHRIST."

All nations shall serve him.
