

means CHANGE! - - - and this is where the problem lies. We are warned over and over again, but the warning goes right over our heads, and our lives go on and on as usual. Nothing Changes! In actual fact, the warning is looked upon as negative talk, negative writing, negative living. Our troubled search for what we deem to be a positive and correct evaluation of life's fulfillment, takes us relentlessly on to the mud-slides of the really negative aspects that plague us. We deny the very purpose for which God created every one of us - TO BE WITH HIM IN HEAVEN - - FOREVER! Afraid of what is REALLY positive, we persist on traveling on the road that leads to nowhere, and we wistfully continue living out, each one of us, his or her own personal and private fantasy; Each one intoxicated with the sour wine of worldly achievement, worldly pleasures, and free living. Does this road and all that is on it give peace of mind and serenity of soul? NO!

Not so with those UNTRoubLED search is for that which is the only (POSITIVE) Reality - - God. The footsteps of the UNTRoubLED walk up the paths of purity and obedience and meekness and humility and trust and Faith and Hope and Charity - and these are the milestones that lead directly to the presence of God - HIMSELF!

1. Please pray for the Sick and Shut-Ins of our Chapels, especially remembering Manny Gomez
